Welcome address

Dear colleague

We would like to invite you to participate in the 9th European Postgraduate Course in Neonatal and Pediatric Intensive Care. These Courses were started in 1993 and have been very successful so far. They are characterized by a highly professional but also familiar and interactive atmosphere.

If you are interested in both Neonatal and Pediatric Intensive Care Medicine, then this Course will offer you carefully selected hot topics and controverse issues presented by experts from around the world. Interaction between the audience and speakers will be guaranteed by round table sessions, and by joint coffee break, lunch time and get-together party.

Looking forward to welcome you next March in Berne

Bendicht Wagner
on behalf of the Scientific Programme Committee
