

IPOKRATES Clinical Seminar Neonatal Infectious Diseases

 Eurostars Oporto, R. Mte. Guilherme Camarinha 212,
4200-537 Porto, Portugal

Date: 16 – 18 April 2026

Objectives

IPOKRATES seminars provide high quality postgraduate education which enables professionals to keep abreast of the most recent developments and offer participants the opportunity to discuss clinical problems or scientific issues personally with international experts.

The objective of this meeting is to provide an updated overview of relevant topics in neonatal infectious diseases. The program aims to promote the exchange of knowledge on prevention, diagnosis, and management of infectious diseases, antimicrobial use, and infection control in neonatal and pediatric settings.

The meeting will address current challenges in clinical practice, emerging pathogens, and new diagnostic and therapeutic approaches, as well as broader public health issues affecting children. Through expert lectures and discussions, the meeting seeks to support evidence-based practice and foster multidisciplinary collaboration among healthcare professionals.

Lecturers

Adriana Cadilla	Nemours Children's Hospital, Orlando, FL, USA
Richard Polin	Columbia University, New York, NY, USA
Lisa Saiman	Columbia University, New York, NY, USA
Larry Stanberry	Columbia University, New York, NY, USA
