

27th ANNUAL MEETING

Sociedade Portuguesa
de Genética Humana

23 - 25 NOV 2023

Lisboa

Abstract Submission to the 27th Annual Meeting of SPGH

Guidelines

The abstract submission and the registration to attend the 27th annual meeting of SPGH are independent actions. You can submit your abstract before your registration to attend the 27th annual meeting of SPGH.

Abstracts submission deadline: 15th September 2023

Abstract acceptance notification: 20th October 2023

NOTE: To participate and present your work you must be REGISTERED for the 27th Annual meeting of SPGH.

All abstracts for the 27th Annual SPGH Meeting must be submitted electronically through the electronic abstract submission system.

The abstracts must be written in English, and should include the following sections: title, author list (e.g., Manuel B. Romeu, Maria C. Duarte), affiliations, abstract text (should be organized into Introduction, Methodology, Results, and Discussion), and if applicable – References, Acknowledgments, or Declaration of Interests.

The abstract title must be in Capital Letters, font size 14 in Arial style, and limited to 400 characters.

The remaining abstract sections should be in Arial style with font size 11, with a length limit of 2200 characters, including the main text and, if applicable, References, Acknowledgments, and Declaration of interests.

Abstract Author's should ensure that proper grammar and spelling is used as well as that abstracts are well-written, -organized, clear, and understandable.

Each author may be co-author of several abstracts, but the presenter of only one work (oral communication or Poster) submitted to the 27th Annual Meeting of SPGH.

When co-author of different abstracts, the authors' names must be written identically in each abstract.

All abstracts will be evaluated through blind peer review by the SPGH scientific committee. Acceptance of abstracts or their selection for oral communication will be based on the following considerations: Originality, appropriate Methodology used, Quality of scientific results, and relevance of Conclusions.

Selected abstracts will be published in the Abstract Book of the 27th Annual SPGH Meeting and in the scientific journal "Medicine®".

The presenting author is responsible for notifying all co-authors regarding abstract acceptance or rejection.

Specific Guidelines to prepare Oral presentations and Posters will be sent to First/Presenting Authors after acceptance.

Abstract Categories (to be chosen upon abstract submission)

Basic Research

Abstracts submitted in the category "Basic research" are generically those describing research that seeks answers to fundamental questions and mechanisms and provides broad insights to many different scientific fields related or not to disease, but mainly unrelated with patient's clinical data analysis. These include studies performed using cell lines, *in vitro* models, *in silico* models, *in vivo* models, pure bioinformatics approaches, theoretical or *in silico* modeling, population genetics in non-diseased cohorts, forensics, etc.

Clinical Research

Abstracts submitted in the category "Clinical research" are generically those describing medical and health research intended to produce knowledge valuable for understanding human disease, preventing and treating illness, and promoting health. "Clinical Research" embraces a continuum of studies involving interactions with patients or results obtained from clinical data, namely diagnostic clinical materials, clinical-trials, case-control studies or other sorts of patients-related data analysis.

Clinical Case Reports

Abstracts submitted in the category "Clinical case reports" are generically those describing and analyzing the diagnosis and/or the management of one or two patients/families. It is the first line of evidence in health care and forms the base of the evidence-based pyramid. Some case reports may also contain a literature review of previously reported cases.

Type of presentation

- Poster
- Oral communication

The Scientific commission of SPGH has the final decision about the type of presentation (poster or Oral communication).

Please indicate if you are eligible and applying to one of the two SPGH awards for young investigators (information available at <http://spgh.net/regulamento-dos-premios/>)
